

Evict Elbit Systems, Wallenstam!

One of Wallenstam AB's tenants at **Långfilsgatan 5** in Kallebäck is Elbit Systems, an Israeli arms company that recently established a subsidiary in Sweden.

Elbit Systems supplies the Israeli military with 85 percent of their drones and 85 percent of their land-based equipment. This company plays an active role in what the International Court of Justice in The Hague says can be described as genocide in the Gaza Strip. At the time of writing, Israeli military forces have murdered around 27,000 Palestinians, about half of whom were children.

Elbit Systems earns huge amounts of money from the ongoing genocide, money that the company uses to pay rent to Wallenstam. Thus, Wallenstam is also profiting from these war crimes. In addition to contributing to the genocide in Gaza, Elbit's Hermes drones have been used for extrajudicial executions in countries such as Sudan and similar operations in Egypt and India.

Wallenstam receives blood money as rent, and this makes Wallenstam an accomplice in this genocide that both the EU, the UN, and organizations such as MSF and Amnesty have condemned.

The fact that Wallenstam chooses to lease to Elbit Systems, which directly finances and equips the IDF, is not only immoral and unethical, Wallenstam risks becoming an accomplice to these war crimes if the silence about the situation continues. Wallenstam should immediately evict Elbit Systems from its premises.

As long as Elbit Systems can rent premises from Wallenstam, Wallenstam has blood on their hands.
